

**NATIONAL REPUBLIC REGISTRY** is proud to announce a special offer to our customers! You are entitled to receive exclusive benefits to audio of the Mel Stamper Law Course:

## INSTRUCTING JUSTICE

**INSTRUCTING JUSTICE** presents for the first time, in recorded form, the powerful and popular course on the Law and Courtroom Procedures taught by Professor Mel Stamper, J.D. His unique experiences as a Vietnam combat aviator, as an officer and Chief of Police, as an engineer, a lawyer and law professor, bring a multi-sided perspective to the legal field. Since his retirement from active practice, he has continued as a student of little-read case law and has arrived at deep insight into our legal history, which become powerful tools for professional and layman, alike.

Mel's wit and wisdom pierce the veil of mystery that intimidates the non-professional litigant when confronted with a day in court. Whether you are concerned with taxes or lawsuits, business or private issues, the information contained here about categories of law, jurisdiction, and courtroom procedure will help give you the ability to influence the outcome of your case.

Among the many topics Mel addresses in this audio course are:

- **Overview of the Legal System**
- **Shelter of Assets**
- **Preparing Your Battles**
- **Legal Strategies**
- **Courtroom Procedure**
- **citizen or Citizen?**
- **Challenging Jurisdiction**
- **War Powers Act vs. Constitution**
